

# Uduak John

## FULL-STACK WEB DEVELOPER

### EXPERIENCE

Independent Contractor, Remote

Full-Stack Developer, November 2020 - Present

- Web Services design and implementation with Ruby on Rails, JavaScript/AJAX (ReactJS), HTML5/CSS3, Sass, and REST API.
- Object-Oriented Programming design and implementation with Design Patterns (MVC, RESTful, etc.). Large project experience with Agile Development, Version Control (Git), SCRUM, and related tools
- Back-End design and implementation with PostgreSQL, and open-source packages.
- System deployment and management with Heroku, Netlify, Vercel, etc.

MICROVERSE, Remote

Project Reviewer/Technical Support Engineer, August 2021 – January 2023

- Reviewed the professional and soft skill projects of at least 65 developers weekly to help them improve their non-technical skills, such as writing, collaboration, communication, teamwork, and personal presentation & professionalism.
- Performed code reviews in HTML, Ruby, JavaScript, and React/Redux-based projects for more than 50 developers and ensured best coding practices. I provide specialized technical advice and guidance to students through 1:1 video calls and chats on Zoom and Slack.

Crosslake Technologies, USA

Fullstack Developer(Contract), June 2022 – November 2022.

- Worked remotely as a development team member utilizing my expertise in front and back-end technologies to deliver high-quality software solutions. Effectively collaborated with cross-functional teams to ensure the successful delivery of robust and scalable applications. My technical skills and attention to detail contributed to the project's success and customer satisfaction.

### EDUCATION

MICROVERSE, November 2020 – September 2021

Full Stack Web Development Program, Remote

- 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair-programming using GitHub, Slack, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers simulating a real-world, hands-on work environment.

University of Benin, Nigeria. 2015 – 2021

Bachelor's Degree in Soil Science & Land Management.

### SKILLS

**Front-End:** JavaScript, React, Redux, jQuery, HTML5, CSS3, Bootstrap, Web Development, Frontend Development.

**Back-End:** Ruby, Rails, MySQL

**Tools & Methods:** Git, GitHub, Heroku, Netlify,

Mobile/Responsive Development, RSpec, TDD, Chrome Dev Tools

**Professional:** Remote

Pair-Programming, Teamwork, Mentoring, Effective Communication, Fast-Paced Learning, Leadership, Collaboration.

### FEATURED PROJECT

**DrRobot:** A fully functional Twitter bot that tracks tweets about Coronavirus, suggests nearby hospitals and emergency rooms, the most common symptoms of it, and the number of cases in five countries including Nigeria, South Africa, Cameroon, Rwanda, and Kenya. Built with Ruby, RSpec.

**Trac.IT:** A full-stack health tracking mobile and web application for measuring weight and nutritional intakes. Users can add their measurements and preview the amount of the essential nutrients or total energy consumed and burned daily. It is built with React/Redux and connected to a REST API built with Ruby on Rails. [Source Code](#)
